

To Whom it may concern I travel out of state all the time, and I love to be able to check the wheather at any given time. Im paying \$10 dollars a month to a private company and I love the service I am getting. When I am in my locale town I usaully listen to the locale station for wheather reports Im confused why the radio stations feel threatend by this service. I hope that xm radio is able to continue this service for me.

Sincerly
Eric Legried
